

ROOM 01		ROOM 02		ROOM 03		ROOM 04			
08:00 09:00	Opening - Luciano Azevedo, Derek Angus and Mervyn Singer								
09:00 09:30	Plenary lecture: Is sepsis really a thing?	Speaker: Derek Angus (USA) Chair: Luciano Azevedo (SP)							
09:30 10:50	Thematic session - Finding sepsis: an unsolved issue	Moderators: Simon Finfer (AUS) / Reinaldo Salomão (SP)							
	Has the epidemiology of sepsis changed?	Kathy Rowan (UK)							
	Where are we in Latin America ?	Flavia Machado (SP)							
	Sepsis 3 helps or hurts?	Christopher Seymour (USA)							
	Detecting sepsis at bedside	Luciano Azevedo (SP)							
	Discussion								
10:50 11:20	COFFEE BREAK								
11:20 12:40	Thematic session - Fluids versus pressors in 2020! - How to treat	Moderators: Sandro Oliveira (RJ) / Fernando Gutierrez (RJ)	PRO-CON Selective decontamination: the forgotten strategy	Moderators: Moyzes Damasceno (RJ) / Thierry Calandra (NET)	PRO CON- Sepsis definitions in children	Moderators: Adrienne Randolph (USA) / José Roberto Fioretto (SP)	Thematic session: How can we improve our results?	Moderators: Josiane Ferreira (SP) / Juliana Lubarino (SP)	
	No matter what, please start with a standard fluid bolus!	Antonio Paulo Nassar (SP)	The evidence is there: why people dont use it?	Simon Finfer (AUS)	We urgently need a Sepsis3 definition for children	Daniela Souza (SP)	Optimization of antimicrobial therapy	Livia Maria Barbosa (SP)	
	Enough with the fluid already, give more vasopressors, and sooner!	Ludhmila Hajjar (SP)	That is easy: the evidence is not enough	Alexandre Biasi (SP)	Sepsis3 for children is a step backwards	Jefferson Piva (RS)	Preventing VAP: can the odontologist help?	Ricardo Fisher (RJ)	
	It's not 'whether' fluid, it's 'which' fluid!	Thiago Corrêa (SP)	Discussion		Discussion		The art of the safety discharge	Regis Rosa (RS)	
	Why use catecholamines? What about other vasopressors?	Derek Angus (USA)	PRO-CON - Give EVERYONE antibiotics NOW!!!!	Moderators: Moyzes Damasceno (RJ) / Thierry Calandra (NET)	PRO CON- Use of steroids in children with septic shock	Moderators: Adrienne Randolph (USA) / José Roberto Fioretto (SP) / Cláudio Flauzino (SP)	How we can coordinate the team efforts?	Renata Pietro (SP)	
	Discussion		Yes, we need to kill the bugs ASAP	Flavia Machado (SP)	Steroids are beneficial in pediatric septic shock		Discussion		
			No, no, no	Mervyn Singer (UK)	Steroids are likely harmful for most children with septic shock	Mário Carpi (SP)			
			Discussion		Discussion				
12:40 14:00	LUNCH								
12:40 13:40	Satellite Symposium Thermo Fischer - Procalcitonin's role in antibiotic stewardship: reflections following ProACT - Derek Angus								
		Satellite Symposium Thermo Fischer - Clinical Practice : PCT to guide antimicrobial therapy in ICU (Sepsis and Septic Shock) - Ludhmila Hajjar		Satellite Symposium Beckman - Early Sepsis Indicator: What if you could know sooner? - Paul R. Morris					

14:00 15:00	Thematic session - Fluids versus pressors in 2020 continued ...! - How to monitor	Moderators: Fabian Jaimes-Barragan (COL) / Ludhmila Hajjar (SP)	Thematic session - Antimicrobial resistance: the untouchable bugs	Moderators William Viana (RJ) / Denise Medeiros (RJ)	Thematic session - Prognostic biomarkers for septic children	Moderators: Joelma Gonçalves Martin (SP) / Marcelo Brandão (SP)	Thematic session - Cells in the battlefield - the pathways of death and survival	Moderators: Fernando Bozza (RJ) / Patrícia Rocco (RJ)
	Is resuscitation working? Just examine the patient!	Glenn Hernández (CHI)	We will defeat them with better bedside practices	Paula Tuma (SP)	Transcriptomic approaches	Jefferson Piva (RS)	Cellular metabolism in sepsis	Tom van der Poll (NET)
	Is resuscitation working? That's what echo is for!	Leandro Taniguchi (SP)	We will defeat them with better drugs	Thierry Calandra (SWI)	Metabolomic approaches	Arnaldo Prata (RJ)	Hypothermia: friend or foe?	Francisco Soriano (SP)
	No, it is not working... How to rescue?	Flávio Freitas (SP)	We will not defeat them	Joost Wiersinga (NET)	Combining clinical and laboratory biomarkers	Vanessa Lanzotti (RJ)	Microglia and sepsis induced encephalopathy	Felipe dal Pizzol (SC)
	Discussion		Discussion		Discussion		Discussion	
15:00 16:00	Round table - Managing a tough case	Presenter: Leandro Taniguchi (SP) Participants: Glenn Hernández (CHI), John Marshall (CAN), Simon Finfer (AUS), Alessandra Thompson (RJ), Ludhmila Hajjar (SP)	Round table - Controversies: ask whatever you want!	Chair: Flavia Machado (SP) Participants: Mervyn Singer (UK), Derek Angus (USA), Fabian Jaimes-Barragan (COL), Elisa Estenssoro (ARG)	Debate - Optimal management of fluids in septic neonates and children	Moderators: Mário Carpi (SP) / Vanessa Lanzotti (RJ) Participants: Cristian Tonial (RS), Maria Regina Bentlin (SP), Miriam Perez (RJ), Marcelo Brandão (SP)	Thematic session - Hot topics in sepsis pathogenesis	Moderators: Patrícia Bozza (RJ) / Pedro Leme (RJ)
							What makes the host susceptible to sepsis?	Thierry Calandra (SWI)
							Plasma proteomics in severe pneumonia: what does it tell us?	Reinaldo Salomão (SP)
							Translational transcriptomics in sepsis	Tom van der Poll (NET)
							Discussion	
16:00 16:30	COFFEE BREAK - LAUNCH OF THE BOOK - SEPSE - (AT THE AMIB'S STAND)							
16:30 17:00	Plenary lecture - We're fed up with "negative" trials. What can we do differently?	Speaker: Kathy Rowan (UK) Chair: Alexandre Biasi (SP)	Plenary lecture - Should the government tell us how to treat sepsis?	Speaker: Christopher Seymour (USA) Chair: Thiago Lisboa (RS)	Plenary lecture - Genetic susceptibility to sepsis in neonates and children	Speaker: Adrienne Randolph (USA)		
17:00 18:00	Round table - Do we really need Surviving Sepsis guidelines?	Moderator: Derek Angus (USA) Participants: Flavia Machado (SP), Fernando Zampieri (SP), Mervyn Singer (UK), Joost Wiersinga (NET)	Thematic session - Advances in the care of the other organ systems of the septic patient ...	Moderators : Elisa Estenssoro (ARG) / Christopher Seymour (USA)	Thematic session - Therapeutic approaches in pediatric sepsis	Moderators: Arnaldo Prata (RJ) / Flávia Foronda (SP)	Thematic session - Triage: an eternal challenge	Moderators: Juana Jardim (RJ) / Juliana Lubarino (SP)
			The lung	Alexandre Biasi (SP)	Optimizing antimicrobial efficacy	Adrienne Randolph (USA)	Risk classification x sepsis triage	Josiane Ferreira (SP)
			The gut and nutrition	Ricardo Rosenfeld (RJ)	New approaches in the treatment of immunodepressed children	Fabianne Carlesse (SP)	MEWS: the best strategies for the wards?	Antonio Bafi (SP)
			The brain	Pedro Kurtz (RJ)	Initial resuscitation: fluid or drug? The eternal controversy	José Roberto Fioretto (SP)	Pediatric sepsis triage: SIRS or organ dysfunction?	Aline Bossa (SP)
			Discussion		Discussion		Discussion	
18:00 19:00	Posters & beers							

ROOM 01		ROOM 02		ROOM 03		ROOM 04		
08:30 09:00	Plenary lecture: Sepsis: a global perspective	Speaker: Simon Finfer (AUS) Chair: Felipe Dal Pizzol (SC)	Plenary lecture Advances in our understanding of the host response in sepsis	Speaker: Tom Van Der Poll (NET) Chair: Reinaldo Salomão (SP)				
09:00 10:10	Thematic session - Post discharge: a new horizon for our patients	Moderators: Regis Rosa (RS) / Antonio Bafi (SP)	No more doctors, Just the computers?	Moderators: Elisa Estenssoro (ARG) / Carlos Loja (RJ)	Thematic session - Optimizing pathogen diagnosis	Moderators: Leonardo Menezes (RJ) / Ana Cristina Frota (RJ)	Thematic session - Translational research in sepsis: methodology	Moderators: Cláudia Benjamin (RJ) / Fernando Cunha (SP)
	The sepsis survivor in Latin America: An unmet challenge?	Cassiano Teixeira (RS)	The computer finds the patients faster!	Marcio Soares (RJ)	Bacterial pathogens - state of the art and the future	Marcio Nehab (RJ)	Mouse models for sepsis: towards a new consensus	Joost Wiersinga (NET)
	Sepsis risk factors for long-term outcome: cause or association?	Luciano Azevedo (SP)	Clinicians are essential!	John Marshall (CAN)	Viral pathogens - pros and cons of multiplex testing	Adrienne Randolph (USA)	Emerging immune single-cell technologies applied to sepsis research	Thierry Calandra (SWI)
	Are there interventions in and after the ICU to improve long-term outcomes?	Kathy Rowan (UK)	Artificial intelligence for treatment: stop treating everyone the same	Christopher Seymour (USA)	Fungal pathogens - optimizing yield	Rosana Rangel (RJ)	Cerebral multimodal monitoring in sepsis	Fernando Bozza (RJ)
	Discussion		Discussion		Discussion		Discussion	
10:10 10:40	COFFEE BREAK							
10:40 11:30	ORAL PRESENTATION - Clinical sciences	Derek Angus (USA) / Thiago Lisboa (RS)					Oral presentation - Translational sciences	Milena Brunialti (SP) / Joost Wiersinga (NET)
11:30 11:35	YOUNG INVESTIGATOR AWARD - Institute Merieux 2019							
11:35 12:40	Thematic session - Back to the blackboard... Let's start again	Moderators: Christopher Seymour (USA) / Kathy Rowan (UK)	Thematic session - Do not neglect them: dangerous infectious diseases	Moderators: Joost Wiersinga (NET) / Tom Van Der Poll (NET)	Thematic session - Reducing sepsis mortality rates	Moderators: Adrienne Randolph (USA) / Jefferson Piva (RS)	Thematic session The multidisciplinary team - why is it so important?	Moderators: Livia Maria Barbosa (SP) / Juliana Lubarino (SP)
	Why we make the same mistakes trial after trial?	John Marshall (CAN)	Arboviroses	Fernando Bozza (RJ)	What is new in quality improvement in pediatric sepsis?	Fernanda Lima Setta (RJ)	Early feeding: why and how?	Cristianne D'Almeida (RJ)
	How we can stop making the same mistakes?	Derek Angus (USA)	Yellow fever	Denise Medeiros (RJ)	Pediatric sepsis at the ER: what do we know?	Joelma Gonçalves Martin (SP)	Psychotherapy: for patients and families	Fernanda Saboya (RJ)
	The right outcomes: so far in the horizon...	Fernando Zampieri (SP)	HIV and sepsis	Andre Japiassu (RJ)	Is it possible to empower family for the diagnosis?	Eduardo Troster (SP)	Early rehabilitation: for everyone?	Jefferson Braga (RJ)
	Discussion		Discussion		Discussion		Discussion	
12:40 14:00	LUNCH							
12:40 14:00	 Sepsis problems in Brazil... What is the role of Ceftazidime-Avibactam in the treatment of KPC infections? - Lorena Felhberg / Simone Nouer	 Satellite Symposium Radiometer - Benefits of run Procalcitonin to detect Sepsis / How AQT90 can improve workflow in a laboratory or POCT - Jose Luis Lopes Pumarega						

14:00 15:30	Thematic session - Advances in antibiotic management	Moderators: Juan Verdeal (RJ) / Flavia Machado (SP)	PRO CON - Does treatment of AKI make a difference to patient outcome?	Moderators: Flavio Nacul (RJ) Alessandra Thompson (RJ)	PRO-CON - Neonatal septic shock: epinephrine versus dopamine as initial agent	Moderators: Adrienne Randolph (USA) / Cláudio Flauzino (SP)	Thematic session - Host changes induced by disease and therapy	Moderators: Andre Japiassu (RJ) / Tom Van Der Poll (NET)
	Using novel biomarkers to start and tailor therapy	Thierry Calandra (SWI)	Yes, AKI is really important	José Mauro Vieira (SP)	Epinephrine	Fernando Martins (RJ)	Sorting out adaptive from maladaptive processes in sepsis	Kenneth Baillie (SCO)
	The role of stewardship and hospital infection control	Thiago Lisboa (RS)	No, it is just an epiphenomenon	Mervyn Singer (USA)	Dopamine	Maria Regina Bentlin (SP)	ventilator-induced lung injury: less is probably better	Patricia Rocco (RJ)
	New drugs, new weapons!	Marcelo Maia (DF)	Discussion		Discussion		Immunosuppression following sepsis.	Fernando de Queiroz Cunha (SP)
	Novel antibiotics for multi-resistant organisms	Joost Wiersinga (NET)	Who should get steroids for septic shock?	Moderators: Flavio Nacul (RJ) Alessandra Thompson (RJ)	PRO-CON - Is ECMO a realistic rescue therapy for low and middle-income countries	Moderators: Vanessa Lanzotti (RJ) / Fernanda Lima Setta (RJ)	The yin and yang of tyrosine kinase inhibition during sepsis	Hugo Caire de Castro-Faria-Neto (RJ)
	Discussion		Anyone meeting the ADRENAL entry criteria	Simon Finfer (AUS)	The risk benefit ratio does not justify the expense	Cristian Tonial (RS)	Discussion	
			Only those meeting APROACCHSS entry criteria	John Marshall (CAN)	Availability of ECMO is essential and worth the cost	Flávia Foronda (SP)		
			Discussion		Discussion			
15:30 16:00	COFFEE BREAK							
16:00 16:30	Plenary lecture - Thinking and looking outside the box	Speaker: Mervyn Singer (UK) Chair: Andre Japiassu (RJ)			Conference: Pediatric sepsis research in low and middle-income countries: overcoming challenges	Speaker: Daniela Souza (SP)		
16:30 18:00	GRAND FINALLE - What pisses me off	Moderators: Flavia Machado (SP) / Luciano Azevedo (SP) Participants: Derek Angus (USA), Tom Van Der Poll (NET), Adrienne Randolph (USA), Kathy Rowan (UK), Joost Wiersinga (NET), Thierry Calandra (SWI), John Marshall (CAN), Kenneth Baillie (SCO)
